SITUATION SUMMARY

Los Coyotes Indian Reservation, San Diego County

As a result of rains and flash flooding on the Los Coyotes Indian Reservation in San Diego County, Mission #2016-Southern-22320 was approved to address the community life safety needs, road repair, and other critical concerns in conjunction with FEMA, Bureau of Indian Affairs (BIA), Cal OES Southern Region, Cal OES Tribal Advisor, Caltrans Region XI, San Diego County OES, and Los Coyotes Tribal personnel.

- Caltrans installed five (8'x12') steel plates along with safety signage to provide temporary road stability and improved access over the Los Coyotes Reservation's only life line road.
- The road is currently stable with one lane closed
- Stakeholders will continue to monitor the situation to provide long term solutions.
- Per the Cal OES Southern Duty Officer (SDO), due to miscommunication between BIA and Tribal personnel, BIA will conduct another site visit on 04/25/16.
- The Tribe has applied for a US Army Corps of Engineers (USACE) funding waiver for repairs. USACE assessed the road and is awaiting BIA assessment
- All further action is on hold pending the BIA assessment.
- National Weather Service is providing the Tribe with daily spot forecast data. There is currently a potential for precipitation on 04/25/16 which may cause additional road damage
- Emergency preparations in place, including food and generators staged with the Viejas and San Manuel Tribes offering assistance (no monetary contributions)
- The Cal OES Southern Region Tribal Point of Contact, Territory Representative, and SDO continue to monitor the incident.

SITUATION SUMMARY

Weather of Concern

Northern California

- Unsettled and cool weather will continue through the weekend with periods of showers mainly north of Cape Mendocino.
- Showers and thunderstorms will be ending this evening for the Northern California interior.

Southern California

- The possibility of precipitation will end this evening, then a high will build in over the weekend for breezy winds and a slight warmup.
- An upper-level trough moving across Southern California will create gusty westerly winds later tonight through early Saturday with strongest winds developing over the mountains and along the desert mountain slopes tonight.

Active Weather Warnings, Watches and Advisories by County:

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA

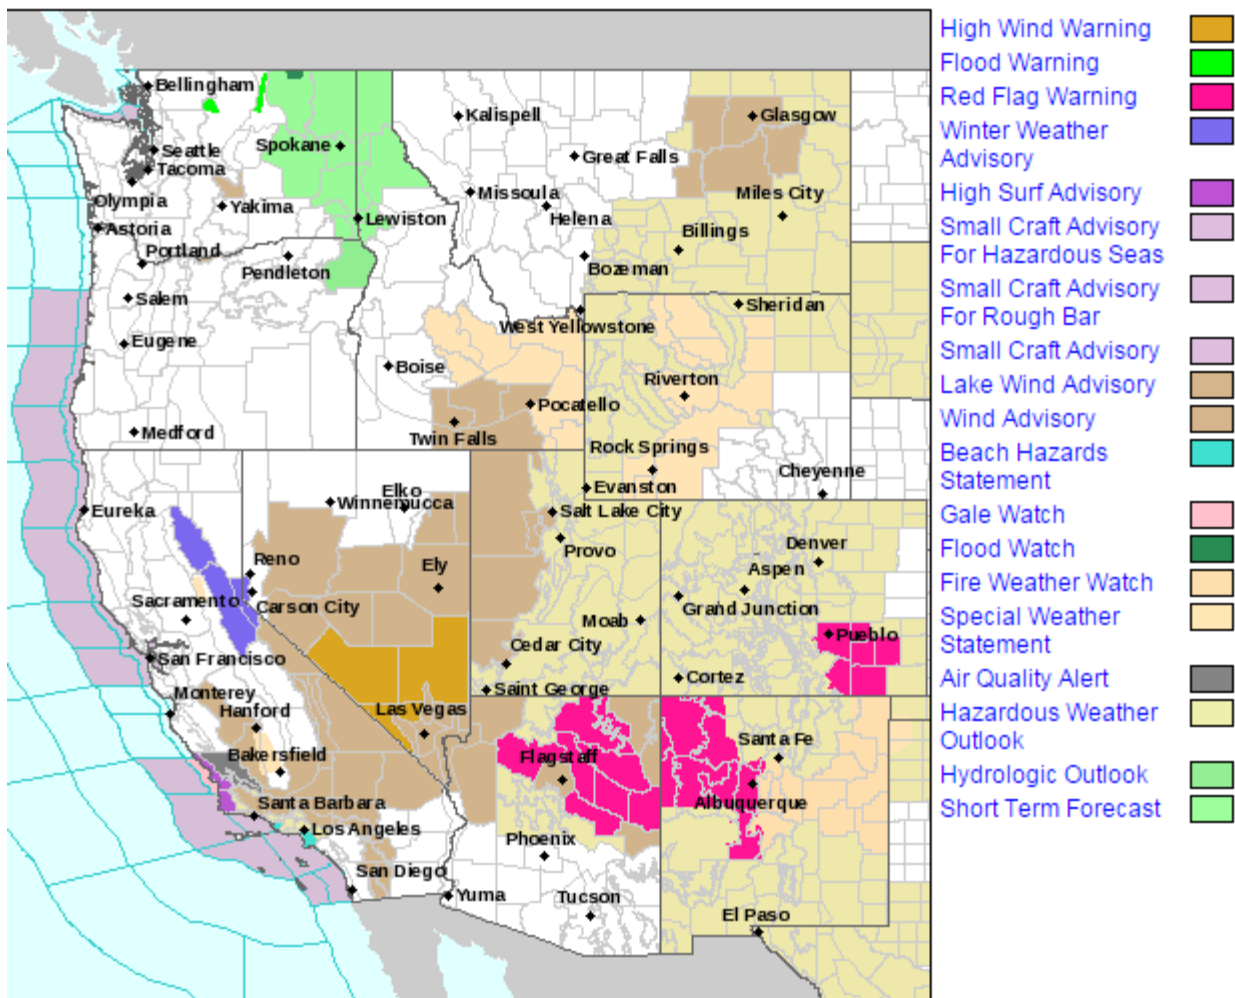

A fairly strong low pressure system is producing scattered rain showers and isolated thunderstorms across Northern California. Snow levels will be around 5000-6000 feet today. A few showers will linger in the northern mountains on Saturday as a weak high pressure passes over the region. The remainder of the region will be partly to mostly cloudy and mild with light winds. Another trough will reach the region on Sunday. S to SW winds will gust to 20-30 mph in open areas by Sunday afternoon. Showers and isolated thunderstorms are expected mainly in northern and eastern areas late Sunday and Monday as the system slides from OR to NV. The remainder of Northern California will still have a slight chance of rain with this system. A third system will produce rain and mountain snow Tuesday night through Friday.

SOUTHERN CALIFORNIA

A trio of weak storm systems will pass by the area during the next 7 days, resulting in periods of rain for the northern half of the district and windy conditions elsewhere. The first of the systems will move through Northern California today which will generate light rain this afternoon from Monterey and Fresno Counties northward. Rainfall totals will remain under a quarter of an inch over most areas before the storm moves east of the area tonight. Strong onshore flow will develop today and some winds of 20-30 mph with gusts to 50 mph can be expected in and near the desert this afternoon. The winds are expected to flip around to the north tonight, resulting in some wind gusts to 40 mph across Santa Barbara County and the I-5 Corridor. Winds in these areas should decrease by Saturday morning. However, it will remain breezy along the central coast and the San Joaquin Valley throughout much of the weekend. Expect much cooler temperatures today with highs back in the 60s along the coast to the 70s in the interior valleys. Slightly warmer weather will return this weekend before a second system arrives Sunday evening. This system will take an inland trek and will largely be depleted of moisture before arriving in Nevada. However, some light rain will be possible across the Sierras and Inyo National Forest Sunday night into Monday. Strong onshore flow will result in very windy weather from the Kern County Mountains eastward into the desert. Expect cooler temperatures everywhere Monday. A weak ridge will bring warmer weather back to the region next Tuesday and Wednesday. The last storm in the series is slated to arrive next Thursday. This may end up being the strongest of the three, and some wetting rains may occur over much of Central California to close out the work week. No offshore flow or exceptionally hot weather is expected the next 7-10 days.

STATE WEATHER MAP

Cal OES
GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC is activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on alternating Wednesdays.
- Cal OES Recovery/Individual Assistance finalized an updated 2015 version of the drought brochure of programs and services for individuals, businesses, farmers, and ranchers. It has been put on the Governor's Drought webpage. State agencies may put the following link to the brochure on their webpage <http://ca.gov/drought/pdf/Drought-Assistance-Brochure-2015.pdf>
- Cal OES Regions (Inland, Coastal, Southern) collective OA drought call is facilitated by the SOC and will be held once per month.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

Local Emergency Proclamations:

A total of 60 local Emergency Proclamations have been received to date from city, county, and tribal governments, as well as special districts:

- 26 Counties: Butte, Colusa, Calaveras, El Dorado, Fresno, Glenn, Inyo, Kern, Kings, Madera, Mariposa, Merced, Modoc, Plumas, San Bernardino, San Joaquin, San Luis Obispo, Santa Barbara, Shasta, Siskiyou, Stanislaus, Sutter, Trinity, Tulare, Tuolumne, and Yuba.
- 12 Cities: City of Live Oak (Sutter County), City of Lodi (San Joaquin County), City of Manteca (San Joaquin County), City of Montague (Siskiyou County), City of Porterville (Tulare County), City of Portola (Plumas County), City of Ripon (San Joaquin County), City of Santa Barbara (Santa Barbara County), City of Rancho Cucamonga (San Bernardino County) and City of West Sacramento (Yolo County), City of Willits (Mendocino County), and City of Fort Bragg (Mendocino County).
- 10 Tribes: Cortina Indian Rancheria (Colusa County), Hoopa Valley Tribe (Humboldt County), Karuk Tribe (Siskiyou/Humboldt Counties), Kashia Band of Pomo Indians of the Stewarts Point Rancheria (Sonoma County), Picayune Rancheria of Chukchansi Indians (Madera County) Sherwood Valley Pomo Indian Tribe (Mendocino County), Tolowa Dee-ni' Nation (Del Norte), Tule River Indian Tribe (Tulare County), Yocha Dehe Wintun Nation (Yolo County), and Yurok Tribe (Humboldt County).
